About Imprints Cares

Imprints Cares is an early childhood education nonprofit, helping to break the cycle of poverty, giving children the early start they need in life. We have a Vision to unlock the full potential of children and their families for success in school and in life. We do this through our Mission enriching children’s development while supporting their families on the journey of parenthood. Our philosophy is that by nurturing children and supporting parents, we have the ability to change our community for the better. If we’re successful together, we’ll build thriving generations of children and their families who are doing their best—not only for themselves, but also for their neighbors, including you. Therefore, given the right resources, children and their families will thrive. We firmly believe that people genuinely want to be good parents, but not everyone grows up with strong role models. Those who didn’t, often struggle with raising their own children. ***Together, we can close the Gap before it begins ...***
