

Parent Portal Overview

The parent portal is where families can see information about Imprints Cares programs, pull statements, make payments, and more.

You will create your log-in and password for the parent portal during the initial registration. If you need help with your log in or password, please call the Imprints Cares office at 336-722-6296 or email expandedlearningsupport@imprintscares.org.

To log in, navigate to:

<https://family.daycareworks.com/login.jsp>

You can also access your parent portal through the Imprints Cares Website.

When parents first log in, the first screen that will display is the News & Info section. The tiles that display on this page are customizable, which means a site can choose how they want parents to be able to interact with the business/center.

The screenshot shows the SchoolCare Works Parent Portal dashboard. At the top, there is a navigation bar with the SchoolCare Works logo on the left and a user profile for Gordon Brown with links for Account and Logout on the right. Below the navigation bar is a horizontal menu with tabs for Attendance, Personal, Registration, Camps, Store, Volunteer, Calendar, Communication, and Auto-Pay. The main content area is divided into two sections. On the left is a grid of 15 customizable tiles, each with an icon and a label: Announcement, Make Payment (showing \$12044.50), Statements, Attendance, Personal, Registration, Store, Volunteer, Calendar, Camps, Communication, Auto-Pay, Daily Insite, Account, and Logout. On the right is the 'News & Info' section, which features an 'Announcement' area with a video player showing a stack of books and a yellow highlighter. Below the video is a 'Welcome' message and a large blue 'Welcome!' text.

- [Parent Portal, Announcements](#) - displays announcements made from the admin side of the site.
- [Parent Portal, Statements](#) - parents/guardians can select the statement tile to pull current and user-defined period statements. This is also where users will be able to pull year-end tax statements based off what has been paid through the system.
- [Parent Portal, Attendance](#) - Parents are able to see when their student has attended a program and select days if a site is using a parent-managed calendar for scheduling.
- [Parent Portal, Personal](#) - Allows parents to add new students to a center and update personal information for students, parents/guardians, or other contacts.
- [Parent Portal, Registration](#) - This is where parents can sign their students up for new programming as made available by a center, this may include yearly program registration, full-day sign-ups, enrichment programs, or summer options.
- [Parent Portal, Communication](#) - Parents can see generic documents, links, and staff profiles.
- [Parent Portal, Auto-Pay](#) - Parents/guardians can register a payment method for automatic deductions.
- [Parent Portal, Daily InSite](#) - Parents can see any activities or photos that have been added for their students throughout the day/week/month.
- [Parent Portal, Account](#) - The account page is where parents will be able to see their username and update their password.
