

September 17, 2018

We are excited to announce Claudia Barrett, MHA, as the new Imprints Cares Executive Director. Claudia is thankful that Nikki is her partner during the transition and in a new role as Director of Special Projects through the end of 2018.

Claudia brings a wealth of experience that mirrors Imprints Cares vision and mission work. She came from Wake Forest University's Maya Angelou Center for Health Equity where she was the Associate Director. Prior to that, she led programs ...at Nationwide Children's Hospital in Columbus, Ohio for 26 years. During that time, she volunteered as the Program Coordinator for Reach out and Read[®] implementing this national model in the largest free-standing children's hospital in the country. In this program, pediatricians prescribe new books to children during well-child visits from 6 months — 5 years old with a focus on low income children.

Please join us in welcoming Claudia to Imprints Cares!
